Dear Batuz,

We recently accepted into the collections a magnificent portfolio produced by the Société Imaginaire. Please know how grateful we are at the National Gallery of Art to have such works in our collections. Over the years, we anticipate that many scholars will come here to consult this portfolio and, by doing so, will help realize the objectives of the Société Imaginaire.

Along with other institutional affiliates of the Batuz Foundation, we look forward to collaborating with the Foundation and to receiving in the National Gallery's archives, library, and collections works that document the signal accomplishments of this international endeavor.

In congratulating you upon the production of the portfolio, I am

Sincerely yours,

Henry A. Millon
