Dear Batus,

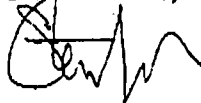

As we have now agreed, four MIT students will come to Altzella, with a planned arrival of 9 June.

I enclose vitae and short statements for three of the four: **Wolfgang Ungerer** (architecture); **Thomas Beischer** (history of art and architecture); **James O'Brien** (architecture, history of architecture, editor of our student journal Thresholds). On Monday I should be able to send you information on the fourth student, **Michael Rakowitz** (art).

Ungerer plans to stay for two weeks at Altzella; the others may wish to stay longer. I am trying to arrange a group meeting and pin down the exact travel plans. I will inform you as soon as possible.

I heard from Leo Marx yesterday that he definitely plans to be at Cadenabbia. We look forward to it. Should I be in touch with the Adenauer-Stiftung before proceeding with travel arrangements?

Best wishes,

Stanford Anderson
