Dear Batuz,

Thank you for sending the letter from Minister Caceres together with the vitas for engineers Dieste Friedheim and Larrambeber Diaz. Now, Minister Caceres' letter and transmittal form speak only of discussions in Cadenabbia.

Do I understand correctly: Caceres and the two engineers (and I) will be in Cadenabbia where we will do some planning for a meeting ("workshop") to be held at Altzella from 31 May through 2 June?

I would like to bring one or two people from MIT. Would they be welcome at Cadenabbia and/or Altzella?

From 28 to 31 March we will have the visit of one of the most distinguished German engineers, Jörg Schlaich. I will want to test his possible interest. If I think he would be a good participant, would he be welcome at Cadenabbia and/or Altzella? I imagine he would only want to be wherever the substantive discussions are to take place.

Batuz, I am not trying to load up your Cadenabbia event -- I just want to know what you envision for each of the two places and who you want to see at each.

With best wishes,

Stanford Anderson
